

The 4-N-1 Bucket People

Ultra Jaw 4-N-1 Bucket

The UJ2 is for compact loaders with lift capacities from 1,100 to 2,000 pounds. Jaw opens to 34" and has 2-1/2" diameter hydraulic cylinders. The UJ1 and UJ1X are for loaders with lift capacities from 2,000 to 4,000 pounds. Jaw opens to 45" and has 2-3/4" diameter cylinders. The UJ and UJX are for loaders with lift capacities from 2,500 to 5,000 pounds. Jaw opens to 48" and has 3" diameter cylinders. These buckets come in widths from 60" to 84" and capacities from 10 to 22 cubic feet. The "Ultra-Jaw" series provides a much bigger opening (up to 50%) than previous designs. The cylinders are enclosed front and rear. Bucket has bolt on reversible dozer blade. Our HJ2 4-n-1 bucket is for subcompact tractors and mini skid steers. Our HJHI 4-n-1 bucket is for industrial loaders.

Grapple Bucket

The GPL is for skid steers and loaders with lift capacities from 800 to 1,500 pounds. The GP is for skid steers and loaders with lift capacities from 1,500 to 4,000 pounds. Available in widths from 60" to 84". Ideal for handling scrap, logs, brush, pipe, etc. Dual cylinders for better control of uneven loads.

www.wrlonginc.com 1607 Cedar St. - P. O. Box 460 - Tarboro, NC 27886 - 252-823-4570

Lift capacities are determined at the center point of the bucket. If your loader lift capacity is specified at the pivot pin then multiply your lift capacity by 0.85 for a more accurate figure.

Root Rake Brush Grapple

Ideal for tree service work, lot clearing, trash removal, etc. The RBG2 is for mini skid steers and loaders with lift capacities from 500 to 1,400 pounds. The RBG2 opens to 48" and is available in widths from 38" to 60". The RBG is for skid steers and loaders with lift capacities from 1,400 to 4,000 pounds. The RBG opens to 70" and is available in widths from 60" to 84". High carbon steel pin on rake teeth. The RBG is also available with dual grapples.

Open Bottom Grapple

The Open Bottom Grapple is designed for tractor loaders with lift capacities from 900 to 2,000 pounds. The OBGs come in widths from 48" to 72" and the grapple opens to 44"

Bolt On Grapple

Made to bolt on to Tractor Loader Buckets from 48" to 72" wide. Grapple opens up to 30"

QUALITY LINE OF LOADER ATTACHMENTS

Made to fit more than 750 loaders and skid steers

Ultra Jaw Low Profile for Track Loaders

The UJXLP is for Track Loaders with tipping capacities from 4,000 to 10,000 pounds. This 4-N-1 bucket opens up to 48" which gives a much larger opening than most 4-N-1 buckets. The UJXLP bucket comes in widths from 66" to 84" and capacities from 17 to 21 cubic feet. The HD series bucket is for skid steers with lift capacities up to 4,000 pounds.

Electric/Hydraulic Valve Kit

The electric over hydraulic valve kit gives you the capability to not only raise/lower and dump/curl your loader but also open/close your attachment all at the same time. The kit is custom designed for most current model loaders and for many out of production loaders. The valve kit is shipped as a complete kit with instructions.

The 4-N-1 Bucket People

Standard Bucket

General Purpose Bucket. Can be made to fit almost any loader. Sizes from 1/3 yard to over 2 yards. Widths from 40" to 96". Designed and built to suit customer requirements.

Tooth Bar and Flat Tooth Bar

Tooth Bar is mounted onto the bucket cutting edge and is secured with two bolts through the end plates. Simply supply the inside dimension of your bucket and we will make your custom fit tooth bar. The Flat Bottom Tooth Bar is available in widths up to 60", which gives a smooth surface when back dragging. Industrial size tooth bars are also available

Wear Blades

Wear Blade is mounted under the bucket cutting edge and is secured with two bolts through the end plates. Eliminates the need for cutting and welding in a new blade. Simply supply the inside dimension of your bucket and we will make your custom fit wear blade.

Fork Lift Attachment

Four different size fork lift attachments are available with lift capacities from 1,500 pounds to 6,500 pounds. The forks adjust from 12" to 51" depending on the loader model. Back guard is standard equipment. Solid high carbon steel forks. The forks are mounted to a round bar with a sleeve welded on the back of the fork. A fork lift grapple is available.

Pallet Fork

The PF has a lift capacity of 3,500 pounds. The forks adjust from 15" to 40" and comes with fork lengths of 42" or 48". Forks lock in place. Can easily be converted to a bale spear using a kit.

Grapalator

The Grapalator is used to accumulate and load up to 10 bales of square bale hay. It mounts to the front of a skid steer or tractor loader. Scan the QR code to visit our video gallery to see it in operation.

Front Blade

The FB is made for tractors up to 55 HP and the FBX is made for tractors up to 90 HP. The Front Blade is available in widths from 60" to 96" and can be set up for manual or hydraulic operation. Blade can be angled up to 30 degrees in either direction.

Snow Pusher

The Snow Pusher is made for tractors up to 40 HP. The height is 22" and depth is 24". Skid pads made of high carbon steel and comes with a 1" thick 6" tall reversible rubber edge. Snow Pusher is available in 60", 72", and 84" widths.

Manure Forks

Made for loaders with lift capacities up to 2,500 Lbs. Tines are 1-1/2" diameter and 20" long with a tine spacing of 7". Available with or without grapple.

Adaptor Plate

Converts your pin on loader to a quick attach loader.
